As an Austrian supplier with deep roots in the fire brigade sector, we produce fire brigade uniforms just the way you want them.

In short: seamTEX GmbH, founded in Steyr, Upper Austria, in 2012, employs only staff with experience in developing, manufacturing and marketing fire brigade uniforms – some of whom have been working in this sector for decades. This means that we can draw on more than 50 years of experience despite the company’s young age.

Made to measure fire brigade uniforms

A YOUNG COMPANY
MANY YEARS OF EXPERIENCE
NO CONTRADICTIONS

Top quality through the use of the following materials:

- seamTEX
- Nomex
- Lenzing FR
- Reflective Material
OUR PRODUCTS MEET THE HIGHEST QUALITY STANDARDS

Choose the right design for your individual fire brigade uniforms. Our range contains seven different designs. You can order our protective clothing with any of the following outer fabrics: Aramid/Lenzing FR, Nomex or PBI Matrix.

The climate membranes used range from the tried-and-tested Sympatex membrane to a high-quality PTFE membrane.
**Reflective stripe options**

- **3M reflective silver**
- **Fluorescent yellow and 3M silver**
- **3M yellow/silver/yellow**
- **3M yellow and 3M reflective silver**
- **Yellow Reflexite**

**Design options**

**Fire Brigade Uniforms Designed with Your Needs in Mind**

Our strength comes from producing fire brigade uniforms to your specific requirements. Our products do not come straight from the rail; they are manufactured in accordance with your requirements. In addition to the wide range of basic features (p. 42), you can choose from a wide range of possible design options. It means you can be perfectly equipped for your duties.

The overview on the following pages shows only a small selection of the design options available for your personal fire brigade uniforms. Individuality is a top priority for us. Feel free to contact us with any questions or special requests.
